## - INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

_	Paulla I. Paris, Cit						
_	Box No. I Basis of the report						
1.	. With regard to the <b>language</b> , this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.						
	<ul> <li>□ This report is based on translations from the original language into the following language, which is the language of a translation furnished for the purposes of:</li> <li>□ international search (under Rules 12.3 and 23.1(b))</li> <li>□ publication of the international application (under Rule 12.4)</li> <li>□ international preliminary examination (under Rules 55.2 and/or 55.3)</li> </ul>						
2.	With regard to the <b>elements</b> * of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):						
	Description, Pages						
	1-7 as originally filed						
	Claims, Numbers						
	1-5 as originally filed						
	□ a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing						
	o dequence Listing						
3.	☐ The amendments have resulted in the cancellation of:						
	☐ the description, pages						
	the claims, Nos.						
	☐ the drawings, sheets/figs ☐ the sequence listing (specify):						
	any table(s) related to sequence listing (specify):						
	, , , , , , , , , , , , , , , , , , ,						
4.	☐ This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).						
	☐ the description, pages						
	☐ the claims, Nos.						
	the drawings, sheets/figs						
	the sequence listing (specify):						
	any table(s) related to sequence listing (specify):						
	* If item 4 applies, some or all of these sheets may be marked "superseded."						

## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

International application No.

PCT/CZ2004/000053

#### Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following documents:

- D1: WO 94/12193 A (DEBIOPHARM S.A; IBRAHIM, HOUSSAM; IRIE, TERUKO; MAUVERNAY, ROLLAND-YVE) 9 June 1994 (1994-06-09)
- D2: MATHÉ G ET AL: "Oxalato-platinum or 1-OHP, a third-generation platinum complex: an experimental and clinical appraisal and preliminary comparison with cis-platinum and carboplatinum" BIOMEDICINE AND PHARMACOTHERAPY, ELSEVIER, PARIS, FR, vol. 43, 1989, pages 237-250, XP002094674 ISSN: 0753-3322
- D3: DE 103 14 377 A1 (STADA ARZNEIMITTEL AG) 7 October 2004 (2004-10-07)

#### Novelty:

The present application does meet the criteria of Article 33(1) PCT, because the subject-matter of claims 1-5 is new in the sense of Article 33(2) PCT.

None of the cited prior art documents discloses a composition comprising the specific weight ratio as claimed in claim 1.

#### Inventive step:

The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claims 1-5 does not involve an inventive step in the sense of Article 33(3) PCT.

The present problem to be solved is the provision of an oxaliplatin lyophilizate which is stable and which has an alcoholic sugar of non-animal origin as a carrier.

The document D1 is regarded as being the closest prior art to the subject-matter of claim 1 and 4, and discloses a composition of oxaliplatin lyophilizate in combination with an alcoholic sugar of non-animal origin such as a carrier (see in particular claim 7, examples and p. 4, 3rd § in D1).

The subject-matter of claim 1 therefore differs from this known oxaliplatin lyophilizate in that the weight ratio of oxaliplatin to the alcoholic sugar of non-animal origin is 1:3 to 1:7. However, the selected weight ratio does not seem to contribute to establish inventive step over D1, since no evidence over the importance of the selected weight

#### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

International application No.

PCT/CZ2004/000053

ratio for the stabilizing characteristics of the composition is derivable from the present application. Thus, the solution proposed in claim 1 of the present application cannot be considered as involving an inventive step (Article 33(3) PCT).

The same reasoning applies, mutatis mutandis, to the subject-matter of the corresponding independent claims 4, which therefore is also considered not inventive.
